## Western Social Science Association

The Western Social Science Association (formerly the Rocky Mountain Social Science Association) was founded in 1958, when the Social Sciences Section of the Colorado-Wyoming Academy of Science was reconstituted as an independent organization. On January 1, 1975, the name was changed to the Western Social Science Association (WSSA) to reflect the geographical representation of the Association. The purpose of the WSSA is to foster professional study, to advance research, and to promote the teaching of the social sciences. Membership is open to all who share its aims. The WSSA publishes the *Social Science Journal*, a newsletter, and an annual program and abstracts for the conference. Several affiliated organizations meet concurrently with the WSSA and share in developing the program.

# Welcome!

April 10, 2002

Dear colleagues:

Thank you for your participation in the 44th Annual Conference of the Western Social Science Association, and welcome to Albuquerque. I hope you find the conference professionally rewarding -- and fun as well! The section coordinators have done an excellent job of assembling research panels, and I appreciate their commitment to their disciplines and the association.

One of the special attributes of WSSA is the diversity of the disciplines represented in our membership, and another is the breadth of expertise assembled at our conferences. In the next few days, we have the opportunity to learn about the research of nationally recognized scholars with years of experience in their fields and to support the budding careers of our student members. I want to take this opportunity to thank WSSA members who have mentored their students by either assembling student panels at the conference or co-authoring papers that students will present here.

I want to call your attention to four special conference-wide events: the Welcoming Reception on Wednesday evening, the Plenary Luncheon and Address on Thursday, the President's Luncheon on Friday, and the President's Reception on Friday evening. Each event is designed to encourage interaction beyond our individual disciplines. We are very pleased to have Vine Deloria Jr., one of the leading scholars in American Indian studies, as our plenary speaker. His remarks on the future of the academy are relevant to all of us.

Enjoy the conference and have a great time in Albuquerque!

Sincerely,  
Nina Burkardt  
WSSA President

April 10, 2002

Dear Conference Participants:

Welcome to the 44th Annual Conference of the Western Social Science Association. The coordinators for 29 sections have done a super job of organizing panel sessions that are sure to generate discussion and new thinking on a wide variety of topics. Thanks to each of the section coordinators for their work in putting together programs that will serve the members of their own discipline -- and attract conference participants from other disciplines as well.

Two popular panels from previous years -- "Preparation of the Professional Portfolio" and "Publishing in the Social Science Journal" -- are being reprised again this year. Also, I hope you will make time to visit the book publishers exhibit, which will be set up throughout each day on Thursday, Friday, and Saturday.

Of course, you should make your trip to New Mexico -- The Land of Enchantment -- as personally enriching as it is professionally beneficial. Ballooning is a local passion, so consider taking a balloon ride. Visit Historic Old Town, attend a performance of Puccini's *Tosca* (April 10 and 13), check out "The Road to Aztlan" exhibition at the Albuquerque Museum, or try your luck at an Indian gaming casino.

Sincerely,  
Nicholas Peroff  
General Program Coordinator  
WSSA President-Elect
