WSSA 49th Annual Conference

Western Social Science Association

The Western Social Science Association (formerly the Rocky Mountain Social Science Association) was founded in 1958, when the Social Sciences Section of the Colorado-Wyoming Academy of Science was reconstituted as an independent organization. On January 1, 1975, the name was changed to the Western Social Science Association (WSSA) to reflect the geographical representation of the Association. The purpose of the WSSA is to foster professional study, to advance research, and to promote the teaching of the social sciences. Membership is open to all who share its aims. The WSSA publishes the *Social Science Journal*, a newsletter, and an annual program and abstracts for the conference. Several affiliated organizations meet concurrently with the WSSA and share in developing the program.

WSSA 49th Annual Conference

THANK YOU!

The Western Social Science Association (WSSA) has received an unprecedented amount of support for its 49th Annual Conference in Calgary. On behalf of the Association, I would like to express our thanks to everyone who has played a role in ensuring the success of the historic **Crossing Borders Conference**. Tourism Calgary has been helpful in numerous ways in the months leading up to the conference, and along with the Mayor's office, has provided invaluable advice and information.

We are very grateful to the Canadian Studies Program, University of California, Berkeley, for providing the briefcases to all delegates. The briefcases will be a practical reminder of WSSA's first Canadian conference. Berkeley alumnus, Russ Kalmacoff of Rockmount Corporation arranged for the production of the briefcases and has also provided in-kind support over the last several months.

Soon after Calgary was chosen as the venue for the 2007 conference, representatives from Canadian Consulates across the Western United States began to promote the event. We would like to thank all of them, but especially Pam Johnson at the Los Angeles Consulate and Kevin Cook at the Seattle Consulate, for the spadework undertaken over a number of years. The Canadian government's generous support for our Plenary Lunch is much appreciated.

The Welcoming Reception is being sponsored by Mount Royal College and we are very grateful for their interest and support.

Our debt to the University of Calgary is profound. It has played an extremely important role through the sponsorship of events, which have been noted in the Program. The Office of the Vice President, External Relations, which is responsible for organizing the University of Calgary reception must be singled out for special mention. The Faculties of Social Sciences and Communication & Culture, as well as the Institutes on campus have contributed financially and have provided in-kind support for the conference. WSSA holds a special Students' Reception and we were very pleased when the Graduate Students' Association at the University decided to sponsor the Reception.

The Executive Council appreciates all that has been done to make WSSA's 49th Annual Conference a truly memorable one.

WSSA 49th Annual Conference

President's Welcoming Letter

Dear Colleagues,

It gives me great pleasure to welcome you to Calgary and Canada. It is fitting that the 49th Annual Conference should be held north of the 49th Parallel and I am honoured to be WSSA's first Canadian President. As usual, the program is an intellectual banquet with an exciting set of panels assembled by President-Elect and Program Chair Rick Adkisson and Coordinators for each of the Sections. We are indebted to them for the hours of work they have put in to provide a fine set of panels.

Over the next three days, there will be ample opportunity to meet scholars in your field, and to renew acquaintance with colleagues you have met at previous WSSA conferences. Between the welcoming reception Wednesday night and the President's Reception Saturday night, there will be many opportunities to socialize with fellow delegates. In addition to our plenary lunches, the President of the University of Calgary will be hosting a reception for all delegates on Thursday evening.

If this is your first visit to Canada, I hope it will whet your appetite for a more leisurely trip. You will find that Calgary is a vibrant and varied city, which prides itself on giving visitors a warm, western welcome. If you have the time, there are many attractions in and around Calgary that are worth a visit, especially the Glenbow Museum across the street. It has just opened a multi-million dollar exhibit called **Mavericks**, which showcases Alberta. It is based on a book by Alberta author Aritha Van Herk, from the University of Calgary, who is attending the conference.

I can guarantee that you will enjoy the next few days and discover why the ambience at WSSA meetings is so seductive. In addition to being intellectually stimulating, they take place in a collegial atmosphere that is welcoming to scholars and students alike.

Enjoy the conference and plan to join us for the 50th Anniversary Conference in Denver in 2008!

Sincerely,

Doreen Barrie
WSSA President

Join Us Next Year in Denver!

Description:

Carmen Duran works the graveyard shift at one of Tijuana’s 800 “maquiladoras”; she is one of millions of women around the world who labor for poverty level wages in the factories of the transnational corporations. The filmmakers gave several women workers in Tijuana video cameras to make a record of their lives, giving the documentary the intimate feel of video diaries. Lourdes Lujan takes us on a tour of her “colonia” Chilpancingo, which has the bad fortune to be located under a bluff from which dozens of factories expel hazardous wastes.

This panel addresses the growing need for a body of research tackling comparative North American border studies. It identifies some of the important theoretical and practical research questions which currently require development of a comparative scholarship and explores the current structural and logistical barriers to such research--namely in the area of funding and collaborative grants opportunities. Participants on the panel will identify areas of concern or research potential, and will lead a broader discussion about future scholarship, funding needs, sources, and collaborative structures. The goal is to develop a framework for thinking about North American borders holistically, as well as comparatively, and to develop the topic as a field of inquiry which requires collaborative scholarship.

Description:

Carmen Duran works the graveyard shift at one of Tijuana’s 800 “maquiladoras”; she is one of millions of women around the world who labor for poverty level wages in the factories of the transnational corporations.

The filmmakers gave several women workers in Tijuana video cameras to make a record of their lives, giving the documentary the intimate feel of video diaries. Lourdes Lujan takes us on a tour of her “colonia” Chilpancingo, which has the bad fortune to be located under a bluff from which dozens of factories expel hazardous wastes.
